

## **Best Practice**

### **CRITERIA – I**

Title of the best Practice: Curriculum Development and Monitoring

#### **Objectives of the Best Practice –**

1. To enhance skills and knowledge of the students in the context of present need of the society
2. To update students about the institution and their functioning in the social work field
3. To develop skills required in the field of social work

#### **The Context that required the initiation of the practice:**

The fast changes in society are observed in the recent years. Accordingly the student social worker should update their knowledge and develop skills for social work practice. The main thrust of this practice is to develop students to compete with present era

#### **Practice**

Suggestion sought through meeting with NGOs and social activist  
APC committee take regular review of syllabus and its output  
BoS, Academic council and governing body involved in updation of syllabus  
Feedback from the students also be considered

#### **Evidence of success**

Through this practice the syllabus regularly updated and students gets knowledge of the present situation. Modification in curriculum helps students as well as students to involved themselves in learning process.
