

Best Practice

CRITERIA – III

Title of the best Practice: Develop skills and aptitude of the student in Research

Objectives of the Best Practice –

1. To update students about the Research in social work field
2. To enhance skills and knowledge of the various research methodology
3. To involve students in research conducted by the Govt. and NGOs.
4. To conduct Opinion poll on current issue through student

The Context that required the initiation of the practice:

The Research is the emerging area in the all sector. Social work is totally based on the research. Every social worker should have the aptitude in research so that the root of the problem could be identified easily and students could use skills appropriately to solve problem.

Practice

Orientation programmes organised for the Students

Workshop organised for skill enhancement

Involved students in survey conducted by Govt. and NGOs.

Involved students in opinion poll conducted by the college

Evidence of Success

Through this practice the students develop their skills in conducting research. They learn the steps in research and developed research report writing skills. The research findings are published for common public through print media. The research friendly atmosphere helps students to get involved in research work.
